

Empowering Students With A Multi-Tiered System of Support

A **multi-tiered system of supports (MTSS)** is a coordinated set of academic and behavioral strategies that promote student success. Everyday Speech provides a social, behavioral, and communication skills curriculum designed for use across all tiers.

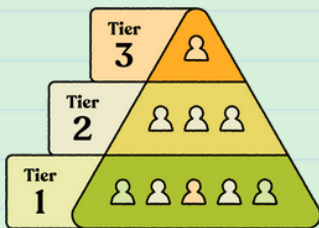

Our Tier 1 solution embeds these practices into academic instruction for all students in a proactive and preventative manner, while our intervention materials set the foundation for more intensive support in Tiers 2 and 3.

Everyday Speech aligns with important district goals such as closing achievement gaps, improving graduation rates, and enhancing school climate.

Everyday Speech Streamlines

MTSS Across Tiers

- **Tier 3 supports** delivering individualized interventions for students who need more support. Everyday Speech offers IEP goal-writing tools and lesson units aligned with specific student goals. These resources allow educators to tailor instruction to unique learning profiles and track meaningful growth over time.
- **Tier 2 supports** include small-group, standardized academic interventions or targeted behavioral and mental health supports. Everyday Speech provides differentiated materials appropriate for students at any skill level. Lessons include either an emerging, intermediate, or advanced label reflecting the cognitive load, vocabulary, and independence level.
- **Tier 1 supports** focus on high-quality academic instruction, positive classroom management, and social and behavioral learning for all students. Our whole-class lessons build core competencies such as self-awareness and relationship skills. Ready-to-use lessons help educators create a supportive classroom community and strengthen connections that promote success across all areas.

Key Components of Effective MTSS

Universal Instruction

Providing classroom-based instructional support that all students receive.

Data-Driven Decision Making

Using data from screening and assessment to drive intervention planning.

Family and Community Engagement

Building community support and awareness.

Targeted and Intensive Intervention

Aligning the continuum of interventions for social and behavior skills across all tiers of supports, supported by Everyday Speech.

Professional Development

Ensuring all staff are trained to implement our social, behavioral, and academic skills curriculum within MTSS.

Using Data to Improve Student Outcomes

Everyday Speech can provide schools with **accessible and accurate data** to make decisions about student programming. Measures of social and behavioral competencies are also important to measure, therefore **lesson units contain guiding questions, learning standards, and performance benchmarks** developed by our team of speech-language pathologists and school psychologists.

At Tier 2 & Tier 3, Everyday Speech data resources include **pre/post-tests, observational checklists, and student performance measures** to monitor student progress toward their individual goals. By equipping educators and therapists with easier data solutions and high-quality, research-based lessons, **we reduce their prep time by an average of 5 hours a week**. This empowers them to use their time to connect with their students and deliver quality instruction. Better-prepared teachers lead to better outcomes for students.

Your Go-To Resource for Easy Implementation

PROBLEM	SOLUTION
Insufficient data to make decisions about the supports each student receives	At Everyday Speech, our curriculum includes multiple ways to assess student progress. With pre and post-tests, observational checklists, interactive reviews, and thousands of practice opportunities , many different options exist to take data across multiple contexts!
A genuine lack of time and staff to deliver quality instruction	We address these constraints with short, bite-sized lessons that fit seamlessly into busy schedules . Our curriculum includes various scheduling options, making implementation flexible and feasible. We equip staff with the tools to participate in this vital shared effort.
Nonexistent or overwhelming data collection tools	Say goodbye to cumbersome data practices with our caseload management tools. Automatically track student progress and integrate seamlessly into teachers' workflows to enhance informed decision-making without the hassle.
Lack of time and materials to foster family and community engagement	We foster strong home-school connections by offering detailed overviews, shareable unit summaries, and practical tips for home reinforcement, ensuring parents are well-informed and involved.
Fragmented materials create inconsistent collaboration between departments	Everyday Speech unifies educators with a consistent, research-based curriculum, PreK-12 . It bridges collaboration across all tiers, ensuring consistent support for students as they build critical social, communication, and behavioral skills.

Everyday Speech afforded us linear instruction for various needs with a plethora of options for implementation, grade/developmental levels, while continuously adding resources. It has allowed the coordinators to guide teachers and students toward a more cohesive implementation.

It is easy to use and navigate so the teachers don't experience the typical overwhelming experience of implementing something "new."
