

# Conversation Measuring Cup

The Conversation Measuring Cup helps us read the situation to know if we can talk for a long or short amount of time. Prompt learners to “Watch and listen for clues to know how to fill their measuring cup.”

## Fill up a little

When you hear a greeting:  
Keep your talking turn short.

What's up?

Not much, how about you?

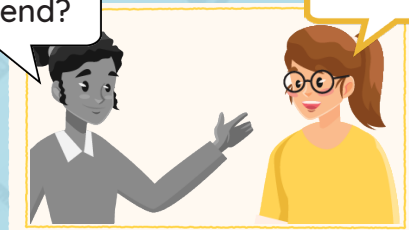

## Fill up a lot

When you're asked a  
specific question:  
You can talk longer on  
your turn.

What did you do  
this weekend?

I went bowling  
with my sister  
and brother.
