# Cyber Skills

Cyber Skills are the rules and etiquette we follow when communicating with others online. We can coach strong Cyber Skills by teaching when to use a device, how to share the conversation, and why we use careful wording.

Time and Place

There is a time and place for messaging, texting, or sharing something.

Conversation Share

We wait for a response and share the conversation 50/50 with others.

Think It or Say It

Think about what we're going to say before we say it.
