The **ID The Emotions Bingo** Premium Activity Packet is designed to offer students the opportunity to learn to identify emotions with the assistance of our visual *SocialMojis*. This packet is recommended for emergent level students who require support with personal emotional development or recognizing the emotions of others, and includes three different Bingo games.

Use this packet in tandem with the following Video Lessons to introduce or reinforce these skills. We suggest using the Bingo Cards from this packet with the following Everyday Speech video lessons:

1. Emotions Bingo I (Extension Lesson)
2. Emotions Bingo II (Extension Lesson)
3. Emotions Bingo III (Extension Lesson)

SLP INFORMATION

Self-awareness and self-regulation develop continually from infancy through adolescence. Labeling emotions is the first step to being able to recognize one's own feelings. The earlier students learn to respond to their emotions and regulate their responses, the more socially successful they will become.
