

# Spring Finger Puppet & WH-Questions Activity

3 pages

## Activity

This spring-themed WH-question activity works on comprehension by having learners answer specific questions (who, what, where, when). Learners can answer WH-question prompts by creating and holding up their spring critter finger puppets.

**INSTRUCTIONS:**

- 1) Color and cut out your spring critters.
- 2) Glue or tape your spring critters together to make them into finger puppets.
- 3) Teachers: Cut out WH-question prompts to read aloud to the group. Learners can answer question prompts by holding up the correct spring critter!

**Prompts**

Who makes  
honey?

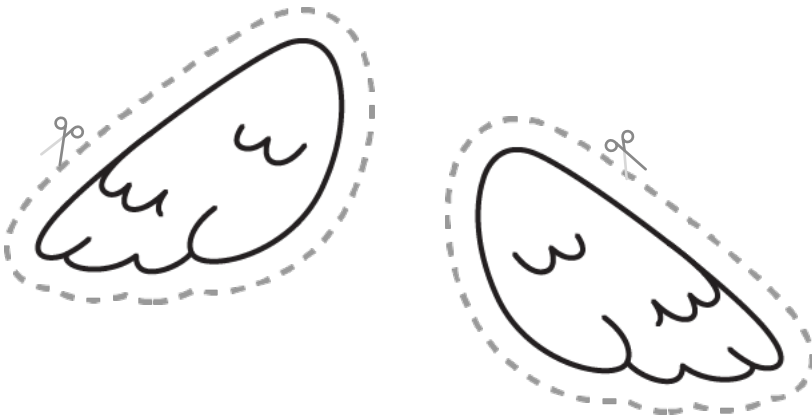

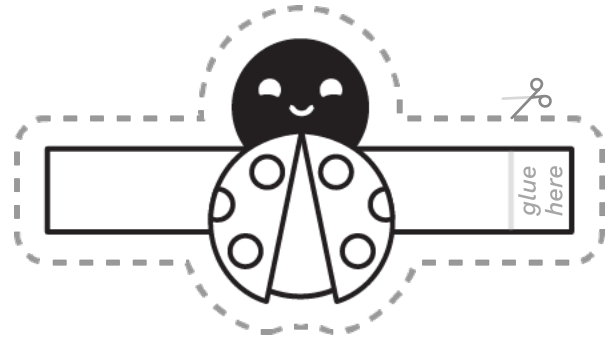

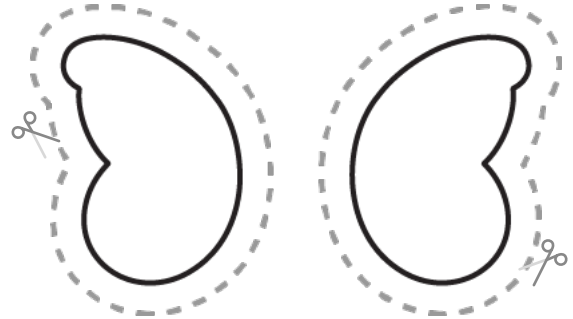

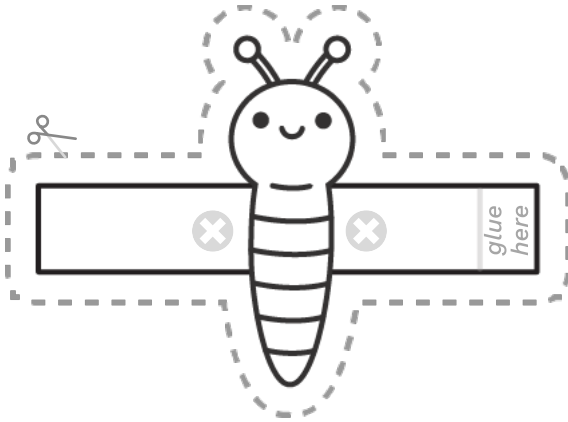

Which bug is red  
with black  
spots?

Where do  
birds live?

What does a  
caterpillar  
turn into?

What does a  
bee say?
