OVERVIEW

We know cost matters. You shouldn't have to spend your valuable time searching for basic pricing information. Our mission is to support educators, not add stress to their lives. That's why we're committed to providing 100% transparency in our pricing upfront, no surprises.

In this guide, you will find pricing for every type of school and district, whether you're looking for curriculum pricing for one student or 15,000 students. Our curriculum is priced flexibly to best fit your specific situation. You can purchase our SEL Curriculum in two ways:

Per License: If you have a small group of educators (1-10) teaching SEL to a small group of students (under 200), this option may be for you. You pay for the specific number of licenses you need. If you want to add more licenses, you would pay for each additional license. Our individual licenses start at \$399.99/license.

Site License: Site licenses are based on the number of students using the curriculum. With site licenses, you can give access to as many educators as you'd like, so long as they teach the students included in your student count. Our base site license pricing starts at 200 students.

If you are teaching a wider group of students or want many of your educators to have access to the curriculum, this option is for you. In most situations, a site license is more cost effective, flexible, and scalable than individual licenses.
